## Phi Sig Survival

### Instructions:

- You and your associate members have just survived the crash of a small plane. Both the pilot and copilot were killed in the crash. It's mid-January and you are in Massachusetts. The daily temperature is 10 degrees Fahrenheit and the nighttime temperature is 10 below zero. There is snow on the ground and the countryside is wooded with several creeks in the area. The nearest town is 20 miles away. You are all dressed in business clothes appropriate for a ritual meeting. Your group managed to salvage some items from the wreckage.
- First, on your own, rank the following items in order of importance (1 being most important and 12 being least important) to your survival. Then you will complete the same process as a group.

ITEM	INDIVIDUAL	GROUP
A ball of steel wool		
A small ax		
A loaded .45-caliber pistol		
Can of Crisco shortening
