

RECOMMENDATION FOR CONSTITUTION/BYLAW/POLICY/RITUAL CHANGES

1. X X _____ (check one)
Constitution Bylaw Policy Ritual

2. Article, Section Number: Bylaws: Article XIV, Sec. 3:

3. Current Wording:

The official flag of Phi Sigma Kappa, in dimension seven (7) feet by five (5) feet, shall consist of three lengthwise horizontal bars. The bottom bar, emblematic of the basis of the Fraternity, the First and Second Degree members, shall be plain red. The middle bar; emblematic of the wide field of fraternal service, the Third and Fourth Degree members, shall be silver with the Greek letters, Phi, Sigma, and Kappa in red centered therein. The top bar, emblematic of administration and meritorious service to the Grand Chapter, the Fifth and Sixth Degree members, shall be red with the original three T's, and circle emblem located within and tangent to a silver triangle at the extreme left.

4. Proposed Wording (underline new wording or attach redline version):

The official flag of Phi Sigma Kappa ~~in dimension seven (7) feet by five (5) feet~~, shall consist of three lengthwise horizontal bars. The bottom bar, emblematic of the basis of the Fraternity, the First and Second Degree members, shall be plain red. The middle bar; emblematic of the wide field of fraternal service, the Third and Fourth Degree members, shall be silver with the Greek letters, Phi, Sigma, and Kappa in red centered therein. The top bar, emblematic of administration and meritorious service to the Grand Chapter, the Fifth and Sixth Degree members, shall be red with the original three T's, and circle emblem located within and tangent to a silver triangle at the extreme left.

5. Reason for the change:

Phi Sigma Kappa has had a unique flag size for many years, and that is cost-prohibitive to produce. In the current state, the unique 7' x 5' dimensions have higher costs per flag, and those increased costs have had to be passed onto our chapters when they order an official flag.

This change would alleviate those high costs by allowing our official flag to be printed in various sizes matching standard flag sizes such as 3'x5', 4'x6', 8'x12', or 10'x15', etc. An example of the current costs, our current custom flag of 7'x5' costs around \$200 for a single print and purchase, while a 4'x6' standard-sized flag will cost around \$70 for an equitable flag material.

In short, this change will provide both our vendors and us the ability to produce affordable flags that can be provided to our chapters at affordable prices.
